Hi Charge RN:

We are now accepting nursing students for their final capstone, and I just wanted to remind everyone that we have a ICU staged teaching for students. (kind of like the new grad staged teaching).

It is located on the share drive and in the charge book under orientation. I know being in the new tower it is a challenge to make assignments, and you have ALOT to be responsible for, but if we can try and give these students assignments that are helpful to their learning objectives...it would be much appreciated. Besides, the better prepared they are...the easier it would be to precept if they get hired here after school. :-)

Thank you all for your help!!!
